## PROFESSIONAL SUMMARY

---

UX Designer with nearly 2 years of experience designing enterprise platforms, AI-driven experiences, dashboards, workflow systems, and mobile/web applications. Skilled in product thinking, information architecture, user flows, wireframing, prototyping, interaction design, design systems, and high-fidelity UI design. Experienced in simplifying complex workflows into clear, usable, and scalable digital product experiences across enterprise, government, AI, HR, mobility, proposal automation, and operational platforms.

## CORE SKILLS

---

**UX & Product Design:** User Research, Requirement Analysis, Product Thinking, Information Architecture, User Flows, Journey Mapping, Wireframing, Prototyping, Interaction Design, Usability Review, Responsive Design

**Enterprise UX:** Dashboard UX, Workflow Design, Role-Based Interfaces, Enterprise Forms, Data Visualization, Status Management, Approval Flows, Admin Interfaces, Design for Complex Systems

**AI & Conversational UX:** AI Product Design, AI Agent Experience Design, Conversational UX, Chat UX, Voice UX, Prompt Flow Design, Human-AI Interaction, AI Workflow Experience Design, Knowledge Retrieval Flows

**UI & Design Systems:** High-Fidelity UI Design, Design Systems, Component Libraries, Visual Hierarchy, Layout Systems, Accessibility Basics, Developer Handoff, Design Documentation, Design QA

**Tools:** Figma, FigJam, Adobe XD, Adobe Photoshop, Adobe Illustrator, Figma Dev Mode, ChatGPT, Claude

## EDUCATION

---

### Bachelor of Science in Visual Communication

Dr. G. R. Damodaran College of Science, Coimbatore, India

## CERTIFICATION

---

### UI/UX Certified Bootcamp

UpGrad, KnowledgeHut

## PROFESSIONAL EXPERIENCE

---

### Exalogic Consulting

*Associate UX Consultant* | December 2024 – Present | Bangalore, India

- Designed enterprise products, dashboards, workflow systems, AI-enabled experiences, and role-based interfaces for business and government-focused platforms.
- Translated product requirements into information architecture, user journeys, task flows, wireframes, prototypes, and high-fidelity UI designs.
- Designed data-heavy interfaces, enterprise forms, approval flows, status-driven screens, admin interfaces, and dashboard experiences.
- Worked on AI workflow experiences, conversational UX flows, proposal automation workflows, and requirement management experiences.
- Created reusable design components and scalable design patterns to improve consistency across product modules.
- Supported developer handoff through structured Figma files, component documentation, screen specifications, and design QA.
- Collaborated with business analysts, developers, product teams, stakeholders, and QA teams to align design decisions with business goals and technical feasibility.
- Participated in UX reviews, design refinements, and implementation checks to improve usability and product quality.

## Digital Dose

UI/UX Design Intern | August 2024 – November 2024 | Mumbai, Remote

- Created user flows, wireframes, prototypes, screen layouts, and visual design explorations using Figma.
- Supported responsive UI design, interaction design, visual hierarchy improvements, and design-to-development collaboration.
- Worked with developers and stakeholders to understand requirements and align design outputs with user and business needs.

## ADDITIONAL EXPERIENCE

---

### Blu Mountain Dairy

Business Owner / Operations | September 2021 – December 2024 | Coonoor, India

- Managed daily business operations, customer coordination, local sales, workflow planning, and service quality.
- Developed ownership, communication, problem-solving, operational planning, and decision-making skills through hands-on business management.

## SELECTED PROJECTS

---

### Internal Audit Platform

Government Enterprise | GRC | Enterprise Web Application

- Designed a centralized enterprise platform to digitize audit planning, execution, evidence collection, reviews, approvals, reporting, and audit repository management.
- Structured complex audit workflows into logical stages to reduce cognitive load and improve task completion.
- Designed role-based experiences for internal auditors, reviewers, audit section heads, administrators, and executive leadership.
- Created dashboard views for missions, submitted audits, pending reviews, draft audits, flag summaries, audit performance, recent comments, and progress tracking.
- Designed reusable enterprise components for tables, forms, status indicators, filters, comments, and workflow patterns.

### Conversational AI Agent

AI UX | Conversational AI | Voice UX | Government Digital Services

- Designed an AI-powered digital agent that helps users access services, programs, initiatives, and information through natural conversations across web, mobile, and voice interfaces.
- Created conversational flows, clarification patterns, structured AI responses, follow-up actions, suggested next steps, and guided user journeys.
- Worked on conversation design, voice UX, information architecture, prompt strategy, interaction design, high-fidelity UI, and AI experience design.
- Focused on trust, transparency, concise responses, contextual guidance, and consistent chat/voice behavior.

### Workforce Operations Platform

HR Technology | Enterprise SaaS | Workforce Management

- Designed a unified HRMS platform covering recruitment, onboarding, visa processing, attendance, employee records, approvals, and workforce administration.
- Created workflows for AI recruitment, onboarding and offboarding, visa management, time and attendance, reporting, and employee lifecycle operations.
- Designed dashboards for pending tasks, workforce visibility, approval status, attendance exceptions, operational insights, and HR reporting.
- Improved long enterprise forms using grouped sections, progressive disclosure, reusable patterns, and clear information hierarchy.
